Ability to work on multiple projects and have the skills to meet all deadlines.

YUK Λ
Y Λ
M Λ MOTO

Skills

HTML5 | CSS3 | Sass | Boostrap | JavaScript | Typescript | Angular | Headless CMS (Strapi) | Node.js | MySQL

Professional Experience

May 2022

E-commerce site

Client: Trunk Records (Part of school project)

URL : yukayamamoto.me/trunkrecords

Trunk Records sells everything from music products to apparel.

Front-end : Angular   Back-end : Headless CMS

・Created REST API endpoints (GET, POST, PUT, DELETE) using Headless CMS to maintain the products.

・Created a system that requests the API as an authenticated user by issuing JWT on the login or registration page.

・Sent requests to the API on the service file, and subscribe to it on the component to retrieve data.

Apr 2022 - June 2022

Singer's Artist Website

Client: Miki

URL : miki-web.live

Miki is a popular singer-songwriter for young people based in Tokyo. I created a website that represents her kawaii style in the simplest possible design.

Front-end : Angular   Back-end : Headless CMS

・Designed and branded from scratch. User research was conducted on her fans to understand their journeys and artist impressions.

・Implemented a headless CMS (Strapi) to assist and train clients.

Education

Sep 2021 - Aug 2022

Vancouver Institute Of Media Arts (VanArts)

Web Development and Interactive Design
